Dear Paul,

Unless you want to keep it, please return the Publishers' Weekly pre-pub review of FRAMEUP. I can never have enough of such things.

I expe ct someone in about an hour, so there is little point in my getting back to the legal work. I'l,answer your 2/7 mailing in order of what seems to be important so that if I am interrupted I can get that mailed this p.m.

I forget where I file things so if we refer to this again, please remind me it is in my Plotd against Castro file. Here I agree with what you are doing and your approach. Also your easoning and your dos and don'ts. But I'll not have time to take the time for thinking you ask, which would be better. He is close to FBI, remember, and they leak to him regular ly. When Pearson was alive, they played both sides. Don't addres LHO angle execpt to say it is incredible, if you have to refer to it, and then that the simplest explanation is that eh and the weapon were incapable and nobody would have trusted him for such a task, and say the rest is complicated, while persuasive, taking more time than you thinkhe has. Best to avoid, for he'll take FBI line.

Without checking my files, I think Veciana also founder Alpha 66. Records on the one Gonzalez exist with three different spellings of the first name. Cofound 66. Generally speaking, they are welcome to almost everything I have. But Odio must be protected, as is easy today since she has a new name. Can8t take time to check your memo, sorry. Ageee, no mention at all Quiroga. If they ask, they also understand need protecting confidentiality.

Your (2), other attempts: I have a CIA man, genuine, on tape on one. No, I think that taoe disappeared in JG's office. But I have sharp recollection and he was in a position to know, having been in the Castro govt and a Bay Pigs vet. That is the bazooka one.

(4) Make no reference to Flammonde. What he didn't steal JG gave him. Sylvia, without limit.

Suggest telling them in general about Hall and Howard as you have it, perhaps also referring to WWII and O in NO, and telling them of my interviews, etc, to which I'll give then access. There is a typed version of the Hall one I've never read and I think parts of the Howard. But what may be more relevant is that of 10/68 with Hemming, who claims he was given refuge by OdioSr and knew Sylvia. Also refer him to father's letter. I can give them a fascinating story on Odio-Dallas, etc. Remember, the FBI Wconfused" part of the Hall story with Masferrer, whose record on this is public.
